NOTICE OF ALLOWABILITY

Status of the Claims

1. This action is in response to papers filed 27 October 2003 in which claims 1 and 15

were amended and claims 27-42 were added and further in response to amendments to claims

1, 15 and 27 discussed and agreed upon in an interview between Mr. Fuller and the examiner

on 6 January 2004 as detailed below.

All of the amendments have been thoroughly reviewed and entered. The previous

rejections in the Office Action dated 30 May 2003 are withdrawn in view of the amendments.

The amendments place the pending claims in condition for allowance.

Claims 1-12 and 15-42 are in condition for allowance.

**EXAMINER'S AMENDMENT** 

2. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with

Michael Fuller on 6 January 2004.

a. Replace the title with the following:

-- ARRAY COMPOSTIONS AND METHODS OF MAKING SAME --

Application/Control Number: 09/931,271 Page 3

Art Unit: 1634

# b. In the specification, page 18, line 26, delete "http://".

# c. Replace Claim 1 with the following:

- 1. An array composition comprising:
  - (a) a rigid support;
  - (b) a molded layer with at least a first assay location comprising discrete sites, wherein each of said discrete sites is configured to hold a single microsphere, and wherein said molded layer is adhered to said rigid support;
  - (c) an adhesive layer disposed between said rigid support and said molded layer; and
  - (d) a population of microspheres comprising at least a first and a second subpopulation, wherein said first subpopulation comprises a first bioactive agent and said second subpopulation comprises a second bioactive agent wherein said microspheres are randomly distributed on said sites.

### d. Replace Claim 15 with the following:

- 15. A method for making an array composition containing at least a first assay location having discrete sites comprising the steps of:
  - (a) contacting a surface of a template structure, said surface comprising one or more sets of projections, with a moldable material;
  - (b) removing said moldable material from said surface of said template structure, whereby said removed moldable material forms a molded layer with at least a first assay location comprising discrete sites, wherein each of said discrete sites is configured to hold a single microsphere;
  - (c) applying a layer of adhesive to adhere said molded layer to a rigid support in order to maintain the molded layer in a planar configuration; and
  - (d) randomly distributing microspheres on said molded layer such that individual discrete sites comprise microspheres, wherein said microspheres comprise at least a first and a second subpopulation, wherein said first subpopulation comprises a first bioactive agent and said second subpopulation comprises a second bioactive agent.

# e. Replace Claim 27 with the following:

- 27. An array composition comprising:
  - (a) a molded layer having an upper surface and a planar lower surface, wherein said upper surface comprises a first assay location comprising discrete sites, each of which is configured to hold a single microsphere microspheres;
  - (b) a rigid support adhered to said planar lower surface and adapted to maintain said molded layer in a planar configuration; and
  - (c) a population of microspheres comprising at least a first and a second subpopulation, wherein said first subpopulation comprises a first bioactive agent and said second subpopulation comprises a second bioactive agent, and wherein said microspheres are randomly distributed on said sites.

#### CONCLUSION

- 3. Claims 1-12 and 15-42 are allowed.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BJ Forman whose telephone number is (703) 306-5878 until 13 January 2004. Starting 14 January 2004, the examiner's phone number will be (517) 272-0741. The examiner can normally be reached on 6:00 TO 3:30 Monday through Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (703) 308-1119. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9306 for regular communications and (703) 308-8724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0196. <u>Starting 14 January 2003, the receptionist telephone number will be (517)-272-0507.</u>

BJ Forman, Ph.D. Primary Examiner Art Unit: 1634 January 7, 2004
